

Villa Adria was founded as a multi-specialist nursing home and over the years has specialised to become an important benchmark in the Marche region for rehabilitation for neurological disorders, severe cerebral palsy and myelogenous lesions.

It has 80 beds, a day hospital and an outpatient centre.

It has specialised units for intensive rehabilitation and a unit for the care of severely disabled patients, mainly patients in a permanent vegetative or minimally conscious state.

Since 2004, it has been the coordinating centre for the service providing care and multidisciplinary rehabilitation treatment for multiple sclerosis, an organised network with the Santo Stefano Outpatient Centres.

Over the years, this facility has progressively developed collaborative links with AISM, the Italian Multiple Sclerosis Association.

Treatment area:

- Assistance for permanent vegetative states
- Ultrasound diagnostics
- Rehabilitation for severe brain damage
- Neurological rehabilitation
- Orthopaedic rehabilitation

Team

- Rehabilitation Physician
- Neuropsychologist and Psychologist
